They Must be Determined First in the Negotiations to Be Had With China.

EMPRESS DOWAGER MUST BE SHELVED.

An Indemnity Fund Must be Created by an Increase of Chinese Customs Revenues, and the Tsung-Li-Yamen Must be Replaced by a Minister of Foreign Affairs.

Washington, Nov. 3 .- It is stated in quarters well versed in Chinese affairs that, outside of the questions of der negotiation at Pekin, there are three vital and far-reaching questions to be determined, viz:

Empress Dowager Must Go. First, the removal of the empress dowager, personally and through the influence of her advisers, from all participation in the Chinese government; second, the creation of an indemnity fund by the increase of Chinas customs revenue, either by the payment of the duties in gold instead of depreciated silver, as at present, or else by doubling the present silver duties from five per cent. to ten per cent. ad valorem; and, third, the establishment of a ministry of foreign affairs, in place of the old and cumbersome system of the

tsung li yamen. An Was Responsible.

The demand for the retirement of the empress dowager is said to result from the conclusion now generally accepted, that the imperial government of China was responsible for the Boxer uprising. As the empress dowager was the ruling authority of the imperial government during the uprising, this responsibility is brought home directly to her. There is understood to be no purpose, however, to visit upon her any personal punishment or indignity, but merely to so form the reconstructed government, as to exclude her from all participation in it. It is deemed advisable, for that reason, that she should remain permanently away from Pekin, and that her advisers also should be kept away from the seat of government.

The Doubling of China's Customs. The plan of doubling China's customs duties has arisen from the need of finding a source to pay the war indemnities which the various powers demand. It appears, however, that the increase of the duties has heretofore been brought to the attention of the United States government by Li Hung Chang. This occurred during his visit to Washington a few years ago, when it was represented that the five per cent. was fixed in 1858, by treaties with the United States, Great Britain and other countries, and was payable in silver, at which time silver was worth as much as gold. But with the change in the value between silver and gold, Li Hung Chang pointed out that China's five per cent. duty in silver actually netted only about 21/2 per cent., judged by the prevailing gold standard. The matter was not pressed at the time.

Present Revenues Already Plcdged. China's present customs revenues are said to be already pledged to meet the interest and principal of Chinese loans, so that it will require some entirely new source

to meet the indemnities The plan of substituting a minister of foreign affairs in place of the tsung li yamen has long been in contemplation, as foreign representatives have found it very difficult to deal with this mixed body, and to locate responsibility upon it, particularly during the Boxer troubles.

MAKING THE PUBLIC PAY.

The Coal Barons Intend to Make the Consumer Bear the Cost of the Recent Strike.

New York, Nov. 3 .- Local coal dealers have been thrown into a state of consternation by an announcement that the price of anthracite coal had been advanced 50 cents a ton.

This increase is general and applies to the annual production of anthracite coal-50,000,000 tons-it means an additional profit to the Coal trust of | TO ASSIST MINISTER CONGER. \$25,000,000.

A dealer, who has analyzed the conditions of mining in the anthracite region, writes to the Evening Post that, in granting an increase of ten per cent. in wages to the miners the cost of production will be increased 81/4 cents per ton. As the price of coal to the consumer had already been increased 50 cents a ton, the new advance gives the operators an additional profit of \$1 on the ton, or \$50,000,-000 a year.

Deducting from this sum the increased cost of production on the basis of 81/4 cents a ton, it will be seen that, as a result of the strike in the anthracite region, the operators will

Vigorous Protest of Indian Agent Shoenfeld Against Unlawful Action of Whites.

Washington, Nov. 5 .- Indian Agent Shoenfeld, in charge of Union agency, whose jurisdiction comprises the five civilized tribes, protests, in his annual report, against unlawful occupation of the Indian lands, and urges rigid congressional legislation to protect the Indian citizen against the encroachment of aggressive and grasping whites. Of 2,900 complaints filed against non-citizens by Indians in the past fiscal year a large majority were against white men who in the past had intruded themselves upon the Indians, and had gained their confidence to a large degree to secure possession of their prospective allotments, and efter having secured possession reused either to pay rent or vacate, thus preventing the Indians from receiving any rents or profits there-

The agent says that there is now every reason to believe that the Indian depredations and disturbances in the five tribes' region are at an end. A few full-blooded Creeks are strenuously opposing the allotment of lands and have banded together and refuse to appear to select their all iments. A large majority of the Creeks, however, have made selections. The report recommends that congress appropriate out of the Cherokee funds a sufficient amount to pay the indebtedness of the nation; that a law be passed compelling the five tribes to adopt a uniform system of taxing non-citizens residing and doing business in the limits of their nation, and that a workhouse or reformatory be established.
